

false eyelashes: 1. very fashionable in the 1960's, charming eyelashes add expression and drama to the face; lashes may be applied individually or as a set, and may be purchased in a variety of sizes, lengths, and thickness 2. a full set of lashes will add more density and glamour to the eye whereas individual lashes offer a natural appeal; place a mirror on the counter to easily view your work versus trying to struggle with one eye open and one closed; apply a small amount of glue to the base of the false eyelashes; use hands or tweezers to adhere lashes to the eyelid working from the outer to the inner eye; allow extra time for drying before reapplying any shadows, and gently blend both real and false lashes with a lash curler and a swipe of mascara

false eyelashes, clusters: a natural and slightly flirtatious look may be achieved with individually placed eyelash clusters; apply five or six clusters to each eye; secure the shorter lashes on the ends and medium-length ones in the center

fantasy makeup: an illusion created in design and color that may capture the beauty, mystery, evil or intrigue of a character

fixer spray: used to keep makeup from streaking or sweating; use like a sandwich: before and after the makeup is applied

fluorescent makeup: luminescent colors used mostly for fantasy characters; this type of makeup will shine under ultraviolet lights
